

Attention: U10 Teams

A minimum of 5 players is required to register a team. U10 teams with fewer than 6 players may add up to two "guest" players from other Fall 2009 AYSO U10 teams in the same city to meet the minimum if all of your players have been invited and fewer than 6 will play.

All players must be currently registered on a Fall 2009 AYSO U10 team in your region. **If you are adding players from another team, the Indoor Soccer Tournament Director will make all additions of players not on your roster. If you know of players who want to play but their regular fall season team is not participating, please have them contact the Tournament Director in their region.** Please list your team members' names in the 1-8, left-hand column and the added players in the 9-16, right-hand column. Also include the jersey color and team name of the added player next to the jersey #.

Please note that ALL players from YOUR team must be invited to play. This is required by tournament rules and violations may result in your team being disqualified. This special opportunity to add players from other teams may not be used to build a roster when fewer than all of your players have been invited.

If you add players from other teams you are required to obtain their white registration form from their current coach. As during the outdoor season, all white player registration forms must be in the coach's possession when players are practicing or playing games.
